- January 4-6th: I attended the PTOT Ski Trip. I had a great time with other ptot students and had a chance to bond and meet new people.
- I sent the results of the PTOT survey concerning the Education Summit to SSMU's VP External. I believe it will be helpful information for SSMU since the results of the survey are quite diverse and insightful.

Shirley Guan – Science Representative

- HAPPY NEW YEAR EVERYONE!!
- Currently working on making a new list of criteria for evaluating suppliers for SSMU under FERC
- I stopped holding office hours during the exam period, but will start again from first week back! Every Tuesday from 3-5 outside of Second Cup in Stewart Bio. I'm planning to do a Cookies for Thoughts every other week to get more people to talk to me and hopefully more feedback for SSMU
- Looking forward to the retreat!!

Victor Lam – Arts & Science Representative

I am distributing a survey to my constituency to collect feedback on how to improve representation

Students' Society of McGill University
Association étudiante de l'Université McGill

Office of the Speakers
Bureau de Présidents du Conseil

of the Interfaculty Arts and Science, considering this position is relatively new to the representing body. I also recognize some the faults as a councillor I made last semester; my aim for this semester is to better serve our small representative body especially to students less informed about political issues, to participate more in motion debates and writing, inform my constituency uniformly regarding issues at SSMU and on how to get more involved in the political process.

Devin Bissky Dziadyk – Science Representative

Nothing to report, excited to see everyone again!
