Have a great time in Rez ☺

#### Senate

- ➤ Long, intense and good Senate meeting!
- ➤ 3 questions were asked by SSMU Senators this week:
  - o The university will be working harder to address the issues surrounding enforcing policies on instructors with regards to academic rights
  - We discussed the current Learning Management System and how certain professors don't use it effectively, or at all.
  - o In response to Prof. Mendelson's response to the Course evaluation question; we will be endeavoring to change the Coure Evaluation policy to extend deadlines through the exam period.
- ➤ Lengthy discussion about the Budget. It was mainly a consultation for the Provost. Everyone around the university is extremely distressed, and rightfully so, about these drastic changes.
- ➤ We passed a motion at Senate saying that Senate is against these cuts. It is along the same line as the motion passed at Board of Governors.

#### Senators

At Monday caucus meeting we formulated a letter to the Provost and VP DiGrappa about the protocol which will be sent to their consultation site as well as published publically

#### Committees

➤ APC was good – changes and approvals went to senate and passed.

- ➤ I am going to create a document explaining the relevant research policies. I think this will help clarify a lot of issues surrounding Military research etc.
- ➤ Met with AVP Stroud about research policies and procedures. She explained everything extremely clearly. I will be formatting a presentation explaining everything clearly.

## Undergraduate Outcomes

This work group has been put on pause due to budgetary constraints. The group will still be working and in touch over email; but we can't speed ahead as much as we would have liked.

If you'd like to make an appointment and/or are interested to see what I get up to, you can see my calendar here: <a href="http://bit.ly/ssmuua">http://bit.ly/ssmuua</a>
