

Motion Regarding Endorsement of the SSMU Building Fee Levy

Whereas, The Lease between the SSMU and the University will cause the SSMU to incur increased costs,

Whereas, These costs started at \$126,900 for the year 2011–2012, and will increase to total possible rent and utilities total cost of \$165,000 + \$171,382.43,

Whereas, Without passing a fee levy, the SSMU would need to pay these new costs out of its existing operating budget, and therefore cut other essential services to students,

Resolved, The SSMU Legislative Council endorse the proposed Motion Regarding the Implementation of the University Centre Building Fee [1].
