CLUBS, SERVICES, and INDEPENDENT STUDENT GROUPS

**Club Applications:** We have steadily been receiving more and more of these and will have to start evaluating them at the Interest Group Committee!

**Club Forms:** The process is slower than I would like so I will be meeting with the various people who deal with any of the club-related forms in order to help streamline the process a bit more.

**Referenda:** Midnight Kitchen is running an existence and fee increase referendum. I have been meeting with them to discuss the timeline of the elections and how the campaigning process works including the various do's and don'ts. A few other groups have considered running a fee levy but have chosen to wait until the Winter Semester to prepare for it.

**CKUT:** September Board Meeting was last week! The annual General Meeting is coming very soon!

PROJECTS/ONGOING ISSUES

**Culture Shock:** QPIRG and I have started meeting to hash out the details of this year's Culture Shock!

**SSMURBS:** The Events and Administrator and I have begun noticing a few bugs that have popped up since the summer blackout.

**Recurring Events Allocation:** This process is taking longer than anticipated because most of the requests are overlapping with each other. The Events Administrator and I

have steadily been contacting people and entering bookings. The entire thing should be done by tomorrow.

**Office Applications:** This has been delayed because of the Recurring Events Allocation. Like last year, I will make the office allocations on a semesterly basis. We're looking into implementing a tiered system for offices and lockers to make sure that groups are responsibly and adequately using the space that is provided to them. The form is nearly ready to be sent out.

**Club Workshops:** This has also been delayed because of the Recurring Events Allocations. However, I have already started planning the content by including input from the permanent staff members who deal the most with clubs. They will start late next week.

## BUILDING

**Pest Control** – A campus-wide pest control contract was signed by McGill with Steritech for the following three years. SSMU has agreed to pay a portion of the cost so that the SSMU Building will be covered by this contract as well. An on-campus technician will be providing us with weekly reports for any kind of intervention.

## DAYCARE

**Fee Increase Referendum Question** – The Daycare Board of Directors has come to the conclusion that the Daycare Fee will need to be increased in order to maintain the Daycare's current level of operation. I have asked the Daycare Manager, Amy Vincent, to be present at the next Legislative Council meeting in the event that you have any questions.

## COUNCIL & COMMITTEES

**Gardens & Grounds Committee** – SQ, September meeting was cancelled  
**Committee on Student Services** – SQ

**Interest Group Committee** – The Coordinator is working on getting the members at large for the first meeting.

**Services Review Committee** – SQ

**Building Committee** – The next meeting is on Monday.

Respectfully Submitted,

Stefan Fong
