CLUBS, SERVICES, INDEPENDENT STUDENT GROUPS

**Club applications:** IGC met last week and we went through 17 applications.

**Club Audits:** Deadline has passed, we're now organizing all of the documents before beginning the processing. They should be completed by Feb. 15.

**New Club Category:** Following a submission on my anonymous feedback form, I created a new club category called "Community Outreach and Volunteer".

**Funding period:** The deadline for submitting an application for funding is January 31<sup>st</sup>.

**Services Check in Meetings:** I've met with MSERT, DriveSafe, WalkSafe, Midnight Kitchen,

**Services' Constitution:** MISN and MSERT have completed their revisions, they will be brought to the SRComm soon. SSMU Volunteer Program, SACOMSS, Organic Campus, Musicians Collective, Nightline

BUILDING & EVENTS

**Activities Night Wrap-up:** Thank you to all of the councilors who came to volunteer! The event had a lot more hiccups than the Fall event because of the significantly reduced window of time I had to plan it but considering there was no flood this year, I am quite happy.

**Club Workshops:** The second round of these will begin late January/early February.

**Sound system for the Ballroom:** Installation on Monday/Tuesday! Looking forward to it!

**Fourth Floor Revamp:** Over March Break, we're going to clean the fourth floor and do some renovation work over the summer.

**Lev Bukhman Renovations:** SQ

### PROJECTS & ONGOING ISSUES

**Office allocations:** Confirmation emails have been sent out informing clubs which rooms they've been given and how to obtain the codes.

**Club-Eco Score:** This will be implemented as a beta test with no impact on club funding but will be given to clubs so that they have a baseline to work from in terms of their spending.

**Club Hub:** My researcher is doing some work on this. Eager to hear back from her.

**myInvolvement:** SQ, no meetings this semester so far

**How to Run a Club/Service:** Will start meeting with services to get them to think about passing on a guide to their successors

### Council & Committees:

**Gardens and Grounds Subcommittee:** SQ

**Committee on Student Services:** We had two meetings since last Council. Unfortunately, I had to miss one because of an exam. We talked about a new subcommittee to discuss the Innovation Fund idea and determine the logistics of the allocation. We were also presented a timeline of Student Services from the 1970s.

**Interest Group Committee:** We met and went through 17 applications. A report will be presented at the next Council.

**Services Review Committee:** Now that Activities Night is done, I will compile the members' availabilities and set the meeting times.

**Building Committee:** Our first meeting this semester is at the end of the month. SSMU Security will now start presenting a report to the committee on the usage of the

Building and audits of the 4<sup>th</sup> floor so that the junk accumulation problem does not recur.

**Funding Committee:** Our meetings will become more frequent once the applications start coming in.

Respectfully submitted,  
Stefan Fong
