

Motion Regarding Tenant Renewal and Renovations on the 2nd Floor of the Shatner Building

Whereas; a large scale renovations of the kitchen area on the 2nd floor not feasible before 2015 because a McGill facilities project for 2nd floor operations has not yet been opened and they typically request large scale projects requested at least a year in advance;

Whereas; SSMU has not defined what it wants this space to look like as a whole;

Whereas; there is significant risk associated with a March expansion of the Student Run Cafe because it is difficult to forecast revenues as this business is not comparable with the current tenants;

Resolved; SSMU renew the current tenants until May 31st 2015

Resolved; Operations Management Committee defines what SSMU would like the 2nd floor to look like as a larger operation

Resolved; SSMU hire an architect through McGill facilities to create floor plans of the 2nd floor
