

Report of the Vice President (Clubs and Services) to SSMU Legislative Council

October 23rd, 2014

Personal

Office Hours

My Office Hours are now Tuesdays from 12-1 and Wednesdays from 11-1. If you're planning on coming to them, be warned, I have mice now.

Emails

Due to my email database being corrupted, most of my time this past week has been taken up re-organizing everything.

Clubs, Services & Independent Student Groups

Club Offices

I'm wrapping up making sure that clubs have moved in properly and are taking care of their offices.

Club Funding

We've completed the First Year, Equity, Green and Charity Funds. However, we didn't reach quorum at the last meeting so we're still missing the Ambassador, Campus Life and Club Funds.

Services Meetings

As an introduction to SSMU, I generally meet with all of the Services at the beginning of the year. Since last Council, I have met with Musicians Collective, and will be meeting with First Year Council this Friday.

Tribune

I'm quoted in the Tribune about the Co-curricular Record. Go check it out!

Building & Events

Activities Night

I'm still looking for feedback for potential changes to Activities Night! Planning for next semester will begin soon, and we're going to integrate a Rez Activities Night.

Projects & Ongoing Issues

Club Hub

I'm currently working on the report and consulting my committees on the current structure of the Club Hub.

MyInvolvement

The pilot has started. The first 25 eligible clubs that have registered will be contacted this week to set up their profiles on myInvolvement. Their involvement will be recognized by the university for this semester. In addition, 7 Services have expressed interest as well and will be participating.

Council & Committees

Interest Group Committee

The Interest Group committee report is for approval. The committee met this week to review club office allocation procedures as well as a rubric for approving new clubs. If you have any recommendations or concerns about the rubric, let me know as the committee would like to start using it.

Services Review Committee

I finally have enough members start meeting! The meetings will be held on Mondays at 11:30AM. I'm still missing a councilor if anyone is interested. There are a couple of Services' constitutional amendments that need to be ratified.

Respectfully submitted
Stefan Fong
