Accountability Committee Report – February 2015

The Accountability Committee convened weekly in January and February to finalize the councillor and exec reviews.

The councillor review survey was sent to faculty associations two weeks ago, and though many faculties have replied, an equal number have ignored our call to action. We have left the survey open and will continue to send reminder emails, and potentially drop by office hours, to ensure their full participation. Individual reports have been sent to councillors who have been reviewed by their faculty associations. A summary can be found here:

As two key members of the executive committee are currently in Singapore, we will present our findings for the Execs at our next report, at the first council in March (March 12th).

After we finish the councillor and exec reports, the committee will focus on setting down guidelines for future accountability committees to better facilitate future efficiency.

Respectfully submitted,
Eileen Siow
