There are four motions: ratification of SSF purchases (student space fund), ratification of allocation of budget for Faculty Olympics, EUS Yearbook and ChESS SSF Capital Fund Application (I anticipate this is an application for the Chem Eng Common room no longer being a hallway; we're putting up a wall.)

#### **Rebecca Medvedev – Nursing Rep**

- Attended NUS council meeting on February 13th. I am in the process of planning a "career development" event for nursing students in conjunction with the NGSA and the Nursing Alumni Association. NUS council has finalized the changes to be put forth (and to be voted upon via referendum question) to our constitution.
- Held my weekly office hours on Fridays from 11:30-12:30 in the NUS office.

#### **Yasmine Nadifi – PTOT Rep**

February 12th: I organized the yoga class as part of occupational balance month. The event was sponsored by David's Tea, therefore I had to carry around campus the heavy thermos...

February 17th: I attended Banque National's lunch conference which is part of the sponsorship package in POTUS.

February 18th: I attended the Zumba class that I organized also as part of Occupational balance month.

Throughout the week, I worked on an email with basic info on health and self-care during midterms or any stressful life events. As of today, students can participate to our contest where they show their way of incorporating good balance in their life. To participate, they have to post pictures on our facebook event.

POTUS has been contacted by the faculty of Law to have a kiosk at their advising day. So far, I have been looking for volunteers, but as everyone is on stage it is harder to coordinate and communicate. The organization of the PT/OT/SLP career fair is going well so far. I need to sign the contract for the ballroom booking. POTUS is currently reviewing its constitution and many important motions will be brought at tomorrow's meeting. We are planning on cutting down 5 positions as we have a high number of students sitting on our council. To raise funds for our graduation bal, we organized a raffle where the big prize was a 200\$ package at Lassman's photography.

\*\*Tonight, we have a POTUS meeting where important decisions will be taken with regards to our constitution. I am planning on being late to the PGSS-SSMU meeting as I wish to attend our POTUS meeting.

## Chloe Rourke – Senate Caucus Rep

### Senate

- ESAC (Feb 10th)
  - Sub-committee of Academic Policy Committee (APC)
    - Policies must be approved at ESAC → APC → Senate
  - Student Assessment Policy
    - Revisions to assessment policy were discussed, to continue at next ESAC meeting
    - Fall Reading Week
      - Survey is going to be conducted to gauge students interest in Fall Reading Week. Survey will include multiple scenarios and the costs/benefits of each. Concerns were raised over any scenario that shortened winter breaks, particularly since it impacts international students
    - Medical Notes
      - Agenda item was tabled to next meeting due to RVC fire
    - Presentations on the new Bystander Intervention Program (student-facilitated workshops focusing on sexual violence prevention) and Degree Works (a pitch on an advising tool to help students manage their degree/program requirements)
- Caucus (Feb 10th)
  - Concerns raised re recent change in service provision from OSD
  - Many crucial Learning Supports no longer being offered, only basic legal requirement
- Meeting with Associate Dean of Students (Feb 13th)
  - Senator Greenspon and I met with Associate Dean of Students to further discuss revisions of Student Assessment Policy
  - We are proposing
    - 6.1.3.1 If a student does not write an in-term assessment for an excused or valid reason, then that student will not be forced to write a final examination worth more than 75% and an alternate option must be provided (to be discussed at next ESAC meeting)
- Meeting with Dean of Students (Feb 13th)
  - Senator Benrimoh and I met with Dean of Students to discuss problems with medical notes (when a student is ill, must submit a doctor's note to defer a midterm)
  - Policy is being proposed that will attempt to standardize the process

Students' Society of McGill University  
Association étudiante de l'Université McGill

**Office of the Speaker**  
Bureau de Président du Conseil

- Intention is to harmonize differential outcomes and to maintain student confidentiality
  - Will know more after next ESAC meeting
  - Some form of self-report process is unlikely - has been met with strong resistance from Faculty in the past
- Meeting with Jana Luker (Executive Director of Student Services) and Director of Office for Students w/ Disabilities (Feb 16th)
  - Discussed concerns raised regarding OSD
  - Director explained the challenges facing the service - same amount of staff as 4 years ago but number of students registered has increased drastically
  - Most of staff is dedicated to first-time appointments to ensure basic legal requirements are being met, process has been streamlined as much as possible
  - Québec government has allocated a huge amount of money to students with disabilities (especially for “besoins émergents”)
  - In past there has been \$750,000 allocated, OSD bids on behalf of McGill for a portion
  - Now government has allocated 7.5 million - McGill is receiving approximately 1.2 million to be used for students with disabilities - to be given centrally to the University
  - A significant portion of OSD’s budget came from its bid on the \$750,000, in June they will no longer be receiving that money
  - As of now, we do not know how this money will be allocated by the University and what portion will be allocated to OSD
  - Highly recommend reading this Daily article:  
<http://www.mcgilldaily.com/2015/02/mcgill-disability-services-funding-uncertain-new-grant-model/>

  - Debrief re OSD
- Caucus (Feb 16th)
  - Senator candidates were invited!
  - Reviewed Senate Docs
  - Update re Medical Notes and OSD
- Senate (Feb 18th)
  - My suggestion of adding “accessibility” to be one of McGill’s principles was lost amidst an extended discussion on whether “academic freedom

- and responsibility” should be listed as one of McGill’s principles, the word responsibility was very controversial
- Response to the University’s strategy towards mental health on campus [http://www.mcgill.ca/senate/files/senate/question\\_regarding\\_pan-university\\_mental\\_health\\_with\\_response.pdf](http://www.mcgill.ca/senate/files/senate/question_regarding_pan-university_mental_health_with_response.pdf)
  - Provost gave presentation about budget
    - Stated that deferred maintenance problem (ie our buildings are too old) is too severe to ignore, money will come out of operating budget
      - Budget cuts + deferred maintenance = not great
  - Asked a question regarding the allocation of the government grant for students with disabilities. Provost confirmed that if money is given to the University earmarked for a specific purpose it cannot be used for other things.
- Meeting with Director of Scholarships & Student Aid (Feb 19th)
    - Discussed financial accessibility challenges facing students
    - Scholarships & Student Aid offer a lot of great services and workshops (ie budgeting, debt management, credit, etc) and are really interested in partnering with faculty associations and student groups to increase their outreach
    - Our bursary program has grown significantly over past years (partly due to increases in tuition and due to the University’s, students’ and donors’ commitments)
  - Committee on Student Services (Feb 20th)
    - Presentation from Director of OSD
      - Discussed critical challenges facing the service and impact its having on service provision (ie understaffed and underfunded)
      - Discussed government grant given to University for students with disabilities
    - Innovation Fund
      - Timelines set, applications are now open
      - Directors of Student Services can apply for funding for larger projects (>\$5000) - must contribute to the mission statement of a Student Services unit(s)

    - Discussed ESAC, meeting with Associate Dean and proposed 6.1.3.1 and other revisions to Student Assessment Policy and website content and promotion/launch

- The MUS executive VPs were decided after 21 interviews this past week.
- They are as follows:
  - VP Events: Andrew Just
  - VP Communications: Wendelina Lai
  - VP Corporate Relations: Michael Fishman
  - VP Conferences & Competitions: Rachel Burk

- The new VPs then went on retreat with the current VPs this past weekend to work on the portfolios for next year and the upcoming MUS involvement package.
- We are pleased to announce that we have *four* women on the executive council for next year. There was a lot of criticism of the MUS that we had no women VPs this year so it's good to see this happen and prove that such an idea is wrong.
- The Desautels Management Leadership Seminar is coming up, and the MUS's conference for first years that also gives them that first introduction to case
- The MUS's F\*\*k Valentine's concert went very well, with no major problems or complaints.
- A new round of interviews for our new Dean has started.
