### **Building & Events**

#### **Activities Night**

---

My fourth and final Activities Night was yesterday! I don't have a headcount of the attendees yet but overall, the event was very smooth. About 235 groups tabled this semester, a noticeable but predicted drop from last semester as many clubs no longer need to recruit new members. We anticipated that the weather would affect the number of attendees so we prepared an overflow room as well as live tweeted the event to let people know when the wait would be the shortest. We also had a record number of volunteers who made a significant contribution to how smooth the event went.

## **Rez Activities Night**

---

Rez Activities Night is on Monday! We're working with Rez Life to host a small-scale Activities Night in the New Rez Ballroom specifically targeted to first years. We're hoping to attract clubs that are looking for new executives to help engage first years in extracurricular activities.

## **Services Summit**

---

Within the next two weeks, I'll start organizing the Services Summit. The agenda has not been finalized, but we will mostly be discussing Services HR and executive transition among other things.

## **Mice**

Guess who's back, back again?

## **Projects & Ongoing Issues**

I will be following up with the groups that were part of the pilot project to gather some data on the system that McGill uses to track extracurricular activity. This will inform the Club Hub Ad-Hoc Committee's discussions.
