- Went to Science GC meeting: approved Fall semester Referendum Period: November 19 at 12:00AM to November 21 at 11:59PM. Approved FUSS President, VP Finance and VP External. Updates on Charity Fair, so much awesomeness!
- Had two IGC meeting. Approved many new clubs! Exciting! I also joined a new club, McSWAY (a presentation poetry club)! Had a discussion on the subjectiveness of the club approving process and the process of reviewing interim clubs. Decided on a new system to approve interim clubs.
- Missed a FERC meeting but met up with Adam Winer and caught up on what I missed: The primary stage is to research on the list of suppliers we have, the available indices for ethical investment, evaluation of current investment. Will have a meeting again with Adam on Monday to discuss the indices and on Wednesday to take a look at all the expenditure of last year and the list of suppliers for SSMU. Very interesting committee! I will focus on the research and evaluation of the suppliers and construct a Preferred List of Suppliers (PLS) for SSMU
- Had regular office hours at Stewart Biology second cup. No one came up to talk. But through different clubs, I met science students and talked to them about SSMU and the motions that didn't get passed at the GA. Extra Office Hours on Tuesday afternoon, Burnside basement and planning on to take initiative to talk to students about the motions that didn't get passed at the GA!
