Auditors' Report

To the Directors of the
Students' Society of McGill University
Association étudiante de l'Université McGill

We have audited the balance sheet of Students' Society of McGill University /Association étudiante de l'Université McGill as at May 31, 2010 and the statements of operations and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Society's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Society's management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Society as at May 31, 2010 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

We have not audited the supplementary information schedules herein and therefore we do not express an opinion thereon.

Students' Society of McGill University

Association étudiante de l'Université McGill

Notes to Financial Statements
May 31, 2010

1. Purpose of the Society

The Students' Society of McGill University ("SSMU") incorporated the Student Center of McGill University on August 19, 1992 under Part III of the Companies Act (Québec). On June 1, 2007, the Student Center of McGill University/Centre étudiant de l'Université McGill merged with Students' Society of McGill University/Association étudiante de l'Université McGill. As a result, the Society was renamed Students' Society of McGill University/Association étudiante de l'Université McGill.

The Students' Society is a not-for-profit organization dedicated to providing various services to McGill students.

2. Change in accounting policies

Effective June 1, 2009, the Society adopted the changes to the recommendations in CICA 4400, Financial Statement Presentation for Not-For-Profit Organizations. With respect to presentation, these changes include making the disclosure of net assets invested in property and equipment optional; making CICA 1540, Cash Flow Statements, applicable to not-for-profit Organizations; and requiring the reporting of revenues and expenses on a gross basis in the statement of operations unless not required by other guidance. A new section, CICA 4470, Disclosure of Allocated Expenses by Not-for-Profit Organizations, requires certain disclosures when fundraising and general support expenses are allocated to other functions. The adoption of these recommendations did not have any impact on the financial statements.

In addition, the Society adopted the amendments to CICA Section 1000, Financial Statement Concepts, which clarify that assets not meeting the definition of an asset or the recognition criteria are not permitted to be recognized on the balance sheet. The adoption of this recommendation did not have any impact on the financial statements.

3. Significant accounting policies

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Students' Society of McGill University

Association étudiante de l'Université McGill

Notes to Financial Statements
May 31, 2010

3. Significant accounting policies (continued)

Revenue recognition

Unrestricted contributions are recognized as revenue of the Operating Fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Restricted contributions related to general operations are recognized as revenue of the Operating Fund in the year in which the related expenses are incurred. All other restricted contributions are recognized as revenue of the appropriate restricted fund.

Investment income earned on resources that must be spent on restricted activities is recognized as revenue of the appropriate restricted fund.

Student fees are collected from students by McGill University and are remitted to the Society. To the extent fees relate to programs and activities administrated by the Society, they are recorded as revenue by the Society. When the fees relate to activities to be administrated by other entities, they are recorded as liabilities by the Society until such time as these funds are paid to the other entities. Activities for which the Society holds such funds include awards and bursaries.

Fund accounting

The Society follows the restricted fund method of accounting for contributions.

The Operating Fund records unrestricted resources which are available for the general operations of the Society. This fund also records restricted resources for activities for which no restricted fund has been established.

The Capital Expenditures Reserve Fund was established in 1985 for the purpose of defraying and recording the cost of certain significant capital expenditures. The capital of this fund is derived from transfers made from the Operating Fund as deemed necessary to ensure the maintenance of an appropriate capital asset base.

The Awards of Distinction Reserve Fund was established in 1990 for the purpose of generating revenue to provide for the Society's awards of distinction.

The Renovation Portion of McGill Student Fund was established, on March 17, 2003 by referendum question, to record sources of funds and expenditures related to specific capital projects. On May 31, 2010, management decided to close this fund. Consequently, the 2010 ending balance was transferred to the Capital Expenditures Reserve Fund and the Student Life Fund as follows: \$869,074 and \$224,797 respectively.

The Queer McGill Undergraduate Fund was established in 2007 as a means to provide students affected by discrimination against queer or trans minorities with assistance to continue their studies. At the end of every fiscal year, any surplus in the Queer McGill department shall be transferred into the Queer McGill Undergraduate Fund.

Students' Society of McGill University

Association étudiante de l'Université McGill

Notes to Financial Statements
May 31, 2010

3. Significant accounting policies (continued)

Fund accounting (continued)

The Health and Dental Plan Reserve Fund was established in 2007 to ensure steady health care costs for students. The surplus from the SSMU Health and Dental plan fees at the end of the fiscal year must be transferred into this fund.

The Student Life Fund was established in March 2010 for the purpose of enhancing student life on campus and to ensure that unused resources from other funds remain available for use in future years. The capital of the Student Life Fund is derived by unused resources from other funds, namely: Internal Fee Funded Funds, Fee Funded SSMU Services, Non-Fee Funded Services, Fee Funded Student Associations and the Gerts Student Life Fund.

Inventories

Inventories are valued at the lower of cost and net realizable value. Net realizable value is the estimated sales price in ordinary course of business after allowing for all further estimated costs of completion and disposal. Cost is determined using the first in, first out method.

Property and equipment

Property and equipment are recorded at cost less accumulated amortization. Amortization is calculated based on the estimated useful life of the assets and computed on a straight-line basis using the following annual rates:

	Rates
Building improvements	10%
Equipment	20%
Furniture and fixtures	20%
Computer equipment	20%
Computer software	50%

Students' Society of McGill University

Association étudiante de l'Université McGill

Notes to Financial Statements
May 31, 2010

3. Significant accounting policies (continued)

Long-lived assets

Long-lived assets are reviewed for impairment if events or changes in circumstances indicate that the carrying value may not be recoverable. If the sum of the undiscounted future cash flows expected from use and residual value is less than the carrying amount, the long-lived asset is considered impaired. An impairment loss is measured as the amount by which the carrying value of the long-lived asset exceeds its fair value.

Financial instruments

Not-for-profit organizations may choose to adopt CICA 3862, Financial Instruments - Disclosures and CICA 3863, Financial Instruments - Presentation or continue to apply CICA 3861, Financial Instruments - Disclosure and Presentation. The Society has chosen to continue to apply CICA 3861 to provide information related to its financial instruments.

The following policies and assumptions were used to determine the fair value of each class of financial assets and financial liabilities.

Cash, accounts receivable, accounts payable and funds held for others

These financial assets and liabilities are measured at their carrying amount since it is comparable to their fair value due to the approaching maturity of these financial instruments.

Investments

Investments are classified as financial assets available for sale. They are measured at fair value, determined on the basis of market value. The Society manages its investment portfolio according to its cash needs and in such a way as to maximize investment income.

Interest rate risk

The Society is exposed to reductions in interest rates, which could adversely impact expected returns from the Society's investments. The effective interest rate on the temporary investments during the year varied from 4.25% to 7.95%. The average interest rate at the end of the year was 5.18% with investments maturing from between 1 month to 12 years.

Credit risk

The Society is exposed to credit risk only with respect to uncertainty as to timing and amount of collectibility of sundry receivables. The Society's maximum credit risk is the carrying value of accounts receivables.

Students' Society of McGill University
Association étudiante de l'Université McGill

Notes to Financial Statements
May 31, 2010

3. Significant accounting policies (continued)

Price risk

The Society is exposed to securities price risk because of investments held by the Society and classified on the balance sheet as available for sale. To manage its price risk arising from investments in securities, the Society diversifies its portfolio. Moreover, the Society has an investment policy statement supervised by an investment portfolio committee.

Contributed facilities

The Society obtains building electricity and heat free of charge from a contributor. The fair value of these services for the year, which was estimated at \$477,333, has been recognized both as a subsidy and as an expense in the statement of operations. If these services were unavailable on this basis, the Society would have had to pay for these services.

Funds which must be used for grants awarded	286,132	283,507

In 1991, the SSMU established the Awards of Distinction Reserve Fund for an initial amount of \$100,000.

Students' Society of McGill University

Association étudiante de l'Université McGill

Notes to Financial Statements
May 31, 2010

8. Interfund transfers and internally restricted net assets

The excess (deficiency) of revenue over expenses generated in the Operating Fund are transferred to (from) the Capital Expenditures Reserve Fund and the Student Life Fund on an annual basis. An amount of \$145,216 and \$72,075 was transferred to the Capital Expenditures Reserve Fund and the Student Life Fund respectively.

Internally restricted funds in the amount of \$3,521,708 of the Capital Expenditures Reserve Fund are to be used for capital expenditures purposes.

Internally restricted funds in the amount of \$7,458 of the Queer McGill Undergraduate Fund are to be used in helping students against discrimination.

Internally restricted funds in the amount of \$248,474 of the Heath and Dental Plan are to be used against future increase in premiums to be paid by the students.

Internally restricted funds in the amount of \$72,705 of the Student Life Fund are made available to the Society to invest in activities aimed at enhancing student life on campus. The remaining balance in the amount of \$224,797 which was derived by the internal transfer from the Renovation Portion of McGill Student Fund.

9. Capital disclosures

In managing capital, the Society focuses on liquidities available for operations. The Society's objective is to have sufficient liquidities to continue operating despite adverse events with financial consequences and to allow it to take advantage of opportunities that will advance its purposes. The need for sufficient liquidities is considered in the preparation of the annual budget and in the monitoring of cash flows and actual operating results compared to the budget. As at May 31, 2010, the Society has met its objective of having sufficient liquidities to meet its current obligations.

The Society will enter into long-term debt to assist with the financing of property and equipment when other sources are not available.

10. Commitments

The commitments of the Society under lease agreements aggregate to approximately \$540,000. The minimal annual payment over the next five years is \$108,000. The rental agreement is currently being renegotiated and is not yet finalized as at May 31, 2010.
