#### **1) Activities Night in Rez**

- Probably the biggest project I've done as a councillor so far, and I'm really happy with how it turned out. The first 3 weeks of January were filled with lots of emails back and forth with clubs and rez people, and the event happened in the New Rez study room on January 22nd. It turned out to be a pretty great location because of its proximity to the dining hall. Since the event, I've had a couple of students email me for the list of clubs/blurbs/contact of the clubs present. Overall it was a successful first event and I hope it can continue on in upcoming years!

#### **2) SSMUFest**

- Props to Allison and crew! I was able to help set up a bit, and It was lovely to walk around and talk to the clubs...and discover new clubs and services that I had never even heard of! So wonderful. Also great to see the new clubs approved by IGC tabling and getting members.

#### **3) Club Guides**

- Met with Zak to create them (how to start an interim status clubs, how to apply for full status), but in my opinion the info already up there is pretty comprehensive. Also, Enbal (IGC chair) is doing a lot of great work with that already. Congrats to Zak on his finance sheet!

#### **4) IGC**

- Unfortunately missed the first meeting, but the second meeting was great and we approved lots of clubs. I also got the chance to attend another interim club event for the Shefa Project - so fun!! Very

welcoming and wonderful group.

### **5) Community Engagement Committee/Day**

- Hopefully we will have a new chair soon and we can get to work this semester. I am super excited to start again, as I have a lot of ideas for this committee and its role in community engagement day. Full Disclosure: I am coordinating Community Engagement Day this semester and I do think my position as a C&S rep will be very helpful, especially since we are hoping to involve more clubs and services this year in the CED projects. Good stuff ahead!

### **6) C&S Check ins**

- So much difficulty in trying to find a regular time where 4 very busy people can meet, so unfortunately we have only met once this semester. We are working on finding a time!

### **7) Other, etc**

- SSMU Equity Conference was fabulous; I especially enjoyed the undergraduate presentations!  
- I've been going to/helping out with a lot of Club or ISG events: Best Buddies Art Auction, MedSpecs Get your research position, and Divest McGill's valentines day break-up party thing!  
- Council retreat was lots of fun, thanks to everyone who organized it!  
- Sorry this is so long and I will actually submit reports now so it never has to be this long again...

- C&S check-ins: planning stages for new semester
- Clubs council: SQ

### **Devin Bissky Dziadyk – Science Representative**

External Affairs: Working on a proposal for an oversight body on Quebec education. Primary goal will be to do Meta analysis on the plethora of information available, and come up with concrete statistics that all parties can agree upon while in negotiations.

FOPS: Mostly SQ. Going to write a survey on regarding second floor tenants

LIFC: Meeting last wednesday, advertising and taking proposals is happening. Can't wait to see what we get.

Science:

- Attended a workshop this past sunday hosted by SUS. Was a great opportunity to see what I can do to better represent science students, and provide input on SSMU policies and projects. Student involvement was brought up several times, which was great to get input on.
- Went to general council which was a big let down as we did not make Quorum i.e. 20/40. Seriously disappointed.
- Science GA is coming up soon, hope to see some good stuff happen

### **Shirley Guan – Science Representative**

Attended IGC, approved some clubs, notably there's a new club called the Northshore association where students discuss political and social problems in China.

Attended FERC, did a lot of individual and group research: got the list of investors that SSMU invest in and started researching each company and evaluating their ethical score according to positive and negative screens; also working on questionnaire for suppliers and positive and negative screens on evaluating them as well. Our biggest supplier is apparently SAQ and will do further research on how to evaluate supplier ethical score starting from SAQ.

Been invited to discuss and provide input on various ways the university could tackle the current budget cuts for the current and upcoming fiscal years at the moment, perhaps pedagogical changes,

Students' Society of McGill University  
Association étudiante de l'Université McGill

**Office of the Speakers**  
Bureau de Présidents du Conseil

more technology, shorter more concise, interesting and appealing lecturing techniques, and perhaps moving forward with some partnerships were proposed. Discussing changes in assessment policy.

### **SUS:**

Council isn't really going well. Biweekly pizza still present, and no significant changes have taken place this year. Realistically, this is the first year the society actually plans on holding a GA, last year's GA was considered a "special" GA and not general GA, due to the society's precondition for signatures to hold that special GA.

There have been broader issues with the society's management of funds, w.r.t council pizza, cell phone, etc. Financial negligence on their end, lending a blind eye to the fact that the society was running under 2 Quebec enterprise registry accounts, and eventually dissolved it years later (quite recently in fact), despite the fact that the society was aware of it's presence even last year.

The execs and leadership at the SUS has been running unaccounted for, spearheading their own finance committee. Proposed to start SUS "inquiry" committee, council declined, and requested a more formal proposal.

**Pedram Mossallanejad – Medicine Representative**

To date, I have attending the majority of both SSMU meetings and MSS meetings. I learned a lot about both student societies, and have done my best to relay relevant information between the two. I have also helped the MSS in applying for funding for their yearly formal event, Inter Nos, from the SSMU Campus Life fund. I was also fortunate to be able to attend the SSMU's fall general assembly. Unfortunately, my involvement in the SSMU council to date has been somewhat impeded due to some IT issues around getting access to the platforms Vibe and Groupwise. This has prevented me from being able to properly prepare for SSMU meetings and being involved in my subcommittee. However, I am confident and hopeful that the issue will be resolved soon.
