### **Report #3**

Dates: up to October 20, 2013

#### **EUS Meeting**

Our council had its first formal meeting, during which we discussed several important things

1. Resignation of EUS president and the election of a new one
2. OAP, which turned out to be very successful this year
3. Design teams space & usage plan in McConnell's basement
4. Cutting prices for cups at Blue's Pub
5. Adoption of Junior Council Bylaws

#### **MEC**

McGill Engineering Competition is coming up in two weeks. I will be helping out with the logistics of the event to make sure it runs smoothly. It is an engineering design and competition event with more than 150 participants expected, and will be taking place in Trotter on November the 9<sup>th</sup> and 10<sup>th</sup>.

### **Report #2**

Dates: up to October 5, 2013

#### **EUS Retreat**

I attended the EUS retreat last weekend, and we had a mock council meeting in which we discussed issues relating to the erection of new barriers at Milton Gates and the Quebec Charter. The majority of councilors opposed both motions and expressed their dissatisfaction with the Charter. However, some members of EUS believe that we should not take a political stance on these issues.

I also made an announcement that the GA is coming up and encouraged everyone to attend.

#### **Frostbite**

Working on a new logo right now.

#### **Blue's Pub**

MEC will be hosting Blue's Pub next Friday, during which I will be helping out and hopefully talk to engineering students at Blue's Pub to find out about GA attendance and their reactions to SSMU motions.

  - b. "EUS general assembly at Blue's Pub – Beer version" – post-GA Thursday night at Blue's Pub, where students vote on one of the latest SSMU motions by choosing designated color-coded plastic cups. - Try to implement the mental health policy in the medical care plan offered by SSMU
  - Bring this to the Ad-HOC Mental Health Committee
- Something that might be useful if you need something (ie. who would be a good resource to contact for something that SSMU can provide, etc.)

  - Celebrating 20<sup>th</sup> anniversary of SUS – kind of a semi-formal event
  - The dean and president will be there with SUS Exec Alumni and Science Alumni

  - The Dean of Science is the only one backing this so far and what he proposed is that the student body will be supported and talk to Dean of

Councillor report 3

SSMU:

- Attended Steering Committee on October 7<sup>th</sup>. All went well and we prepared for the General Assembly
- Attended GA on October 9<sup>th</sup>. Unfortunately, no quorum was reached, but I believe some interesting reflections concerning attendance and motions arose from the event.
- Attended SSMU Council on October 10<sup>th</sup>.

POTUS:

- Midterm time for POTUS members, hence it has been a quiet week in terms of events and meetings.

- Finally have a place for office hours. 8:30 - 9:30 in Burnside basement, feel free to drop by.
- Am currently working on the data that Katie sent out with regards to former GA's. I'm hoping to apply some statistics to it and see if there is any relevant information: i.e. do more people show up if there are more motions, etc. Will also be interesting to compare the amount of Quorum versus time.
- First Ops Comm meeting happened, didn't actually get to do much, but next time!
- SUS meeting this past week was relatively quiet, although we did have a lovely visit from VP Farnan.

I held my office hours both weeks on Wednesday morning. The Tuesday following Thanksgiving was supposed to be for Funding Committee. However, it was cancelled. This week, there will be a funding committee meeting. There is also a EUS meeting on Monday. There is one notable update from the EUS. The president has resigned. We are currently accepting candidates. The new president will be chosen through a committee.
