Report of the Community Engagement Committee to Legislative Council

December 3rd, 2015

Committee Members:

Emily Boytinck, Vice-President (External Affairs)
Fatima Boulmalf (Community Engagement Committee)
Lauren Toccalino (Music Representative)
Chelsea Kingzett (Environment Representative)
Becky Goldberg (Arts Representative)
Georgia Stavrakis (Member at Large)
Guoyue Xu (Member at Large)
Laura Khoury (Member at Large)

Goals:

The Community Engagement Committee has three main goals for the 2015-2016 year:

1. **Community Engagement Mixers:** The Community Engagement Committee will be organizing two mixers in Winter 2016, including a Health & Human Rights mixer on January 21st and an Art & Expression Mixer on February 2nd. Right now, we are in the process of contacting different groups who might be interested in participating.
2. **Community Engagement Database:** This is an ongoing project that we haven't really started, but we've started to look into different software it could be housed on. Over the summer, I also met with SEDE and the SSMU volunteer service to discuss how we can best collaborate on the project.
3. **Community Engagement Awards:** This is an event that we co-host with the Arts Community Engagement Committee. It will be the third year it exists!

Progress:

We have focused the majority of our efforts thus far on setting goals and getting to work on the mixers. This committee has historically done the majority of its work in the winter semester due to the time delays in getting the committee recruited and setting goals.

The Community Engagement commissioner was also active in the preparation leading up community engagement day, and in the McGill Votes campaign.

With love and solidarity,

Emily Boytinck
Vice-President (External Affairs)
