

## Report to the Legislative Council – Internal Regulation Review Commissioner

March 31, 2016

### 1) This Semester

- Brought the Internal Regulations up to speed with the restructuring of the executive portfolios
- Reviewed and updated the Internal Regulations of the University Affairs Portfolio and the Internal Regulations of the Presidential Portfolio
- Various Policies were also brought up to date to reflect changes made elsewhere
- Constitutional reform was successfully passed by referendum. This cleaned up the Constitution.
- Drafted a legacy document so that others can undertake Internal Regulation review consistent with the way it's been done in the past

### 2) Internal Regulation Review Committee

- Met a number of times over the semester to review various governance documents before presentation to the Legislative Council
- They did great work, we had a great team this year 😊

### 3) Future Priorities

- The Internal Regulations of the Internal Affairs Portfolio require a significant amount of work and consultation
- The Internal Regulations of the Finance and Operations Portfolio need to be split into Finance and Operations
- I wanted to update the Judicial Board Internal Procedures as well but ran out of time – this should be continued in the fall
