Motion to Adopt a Policy Against Affiliation with Far Right Groups | 1
Appendix A

Policy Against Affiliation Against Far Right Groups

Scope

This policy shall apply to all:

1. Staff, volunteers, and elected representatives of the SSMU
2. Clubs, Services, and Independent Student Groups

Definitions

**Far Right**: <<parties and movements based on fascist, racist and/or extremely reactionary ideologies. Officially those on the far right embrace the concept of the "inequality of outcome", meaning that one group is naturally better than another. They also tend to embrace inequality of opportunity as well, favoring concepts such as segregation, or mass deportation of non-white people (or in general, people of other races), or sometimes even genocide - although they sometimes keep these abhorrent views hidden, except when trolling anonymously online (see /pol/). The label "far right" can apply to everything from absolute monarchies to Nazism, meaning that many far-rightists oppose others on the far-right who have a different idea of what the ruling class should be>> (RationalWiki)

**Far Right Groups**: Groups named in a list updated annually by the Vice President (External Affairs)

1. The SSMU will hold a zero tolerance policy for affiliations to Far Right Groups
   1.1 The SSMU will sever any official ties and restrict funding opportunities to any club, service, or Independent Student Group who has any formal or informal affiliation with any Far Right groups
1.2 Should a group wish to appeal their having their status and funding opportunity removed on the basis of a misconstrued affiliation, they may appeal to the Legislative Council

2. The Vice President (External Affairs) will annually at the beginning of their mandate update the list of Far Right Groups active in Montreal to be ratified by Council and shared with general membership as a reference.

3. Any person who has either a formal or informal affiliation with a far right group cannot run for a position with the Society, to be regulated by Elections SSMU.
