

Engineering Councilor Report

November 15th, 2018

Referendum Questions

- Adoption of our new constitution.
- Renewal and reduction of the Engineering Undergraduate Support Fund.
 - The EUSF is a fund for academic resources such as hosting review sessions, creating new course material, etc.
- I don't know if they passed as I'm writing this report. We'll know by the time I'm reading this report.

Current projects

- We moved from a custom system to ssmu.simplyvoting.com
- Lots of work on our wiki (<http://wiki.mcgilleus.ca>)
 - Some of this information is relevant for all faculties, go check it out !
 - Information about buildings, samosa sales, deals, chants and much more.
- Our 3D printing service, The Cube, got their own printer. They don't have to solely rely printers shared with the Mechanical Engineering Department anymore.
- Creation of a Mental Health Directorship.
- Involvement Restriction Policy
 - Committee was formed and trained.
 - Working with other faculties to make a shared policy.

Things to Come

- Canadian Federation of Engineering Students Congress for engineers across Canada.
- E-Week. As fun, safe and inclusive as ever.

If you have any question, comments, feel free to reach out to me,

All the best,

Maxence Frenette (He, Him/ Il, Lui)

Engineering Representative to SSMU Council
MC7, 3480 University St, Montreal QC, Canada
