Engineering Councilor Report
February 7th, 2019

General Updates and Check Ins

- Council meeting with the Dean
  - On January 26th, 2019, EUS Council had a meeting with the Dean of engineering where we had a chance to have an open forum with him.
  - It went quite well overall, with the primary focused centered around mental wellness/heath, space issues due to Schulich closing, and the changing landscape of accreditation.

- Executive Midterm Report
  - Over the last few weeks, executives gave midterm reports about their activity over the last 8 months and council had an opportunity to give anonymous feedback.
  - The execs are doing fantastic and everyone is quite happy with their performance so far.

Events and Projects

- E-Week
  - E-Week happened
  - It went quite well, there were some minor issues but the Coord team did a great job.

- CFES Congress
  - Schools from across Canada met to participate in workshops, be part of the CFES General Assembly, and hold elections for the next executive team.

- Local Wellness Advisor (LWA)
  - Engineering recently acquired an LWA, Lauren Weber, to assist with student living and provide support to encourage mental wellness.
  - Still quite new, but everyone is very excited to see how it plays out.
• **Self-Care Scunt**
  - A scavenger hunt for the items are all self-care related! It went great!

• **How to be mentally ill at McGill booklet**
  - A project from the VP Student life which aims to be a guild for McGill mental Health services and what the experience is actually like.

**Things to Come**

• **General Assembly**
  - The EUS GA is tentatively book for early march, and it’s going to be a long meeting.
  - We have essentially all our bylaws and constitution to look over after major overhauls this past year.

• **Elections EUS**
  - Nominations began on Monday, and campaigning begin late next week. Results should be announced by March 2nd.
  - It’s looking to be an exciting election, with some major competition for the Presidency this year.

• **Conference for sustainability in engineering**
  - The first conference of its kind being held by the CFES. We have two delegates going from SEAM and the Exec team.

• **OAP: Confirmed on lower field!!**

If you have any question, comments, or concerns feel free to direct them to me during the meeting or to shoot me an email.

All the best,

**Gareth Price (He, Him/ H, Lui)**
