

Noah Merali – Services Representative

Report 13-02-2020

What I've done this semester:

- Kept up communications with Midnight Kitchen. The building closure and (hopefully) upcoming move in has been really hard on them so we're doing what we can to make things go as smoothly as possible
- I have met with all the Services through the formation of an unofficial services roundtable. There we discussed common issues that Services faced such as the SSMU volunteer form and concerns about the University Centre.
- I have also submitted the notice of motion that was presented earlier during this session of Council that would formalize this roundtable into a committee. During our first meeting, a lot of services really liked the idea and so we hope to move forward with it.
- I have sat on the Services Review Committee where we've been collecting survey results as well as reviewing existing and potential services
- I also sit on the Affordable Student Housing Committee where we've been making good progress gauging what the student body wants, what options exist, and how do we get students involved in affordable housing projects
- That's pretty much it. I've just been focusing on getting this Services Committee off the ground because I think it would be really good for the Society.

Respectfully submitted,

Noah Merali

Services Representative
