8. Report - Comprehensive Governance Review Committee -- APPROVED

Governing Documents Researcher, Husayn Jamal, presents.

Governing Documents Researcher Jamal speaks on refining the Society’s commitment to representation. Governing Documents Researcher Jamal states that the preamble clause on representation was re-written, which was partly written by VP External and VP University Affairs.

As well, Governing Documents Researcher Jamal states that there are changes being made to the Judicial Board, involving changing the name of the body and providing greater clarity on its structure of existence.

Further Jamal notes that the level of authority between the French and English languages has changed. He states that going forward, by nature of Bill 101, the French language version is authoritative.

Regarding composition, Jamal highlights that a new seat will be granted to the Theology Students’ Association, given that they are no longer a part of the Faculty of Arts. He also notes the removal of the General Manager as an ex-officio member of Legislative Council.

Question Period:

Senator Lametti inquires about the changes to the preamble, asking why there is no reference to the Gatineau campus students that will begin to be represented as of next year, and further inquires what prompted the changes to lengthen the preamble.

Governing Documents Researcher Jamal states that he does not have an answer for why only the downtown campus is referenced and refers Senator Lametti to VP External. For the second question,
he states that the other two preamble clauses within the Constitution are the length of the proposed representation clause, and states that the representation clause was quite short.

Councillor Kaye inquires what making the Judicial Board a committee of the Board of Directors means in terms of structural changes.

Governing Documents Researcher Jamal states that already, the Judicial Board is a body of the Board of Directors. He notes that that is unclear however, given that no other committee acts simply as a ‘body’ of the Board. He further notes that the Judicial Board acts like a committee already, given that the members of the Judicial Board are appointed by the Board, serve the Board of Directors, and can be removed by the Board of Directors. He states that by making it a committee, they would be reflecting current practices, as well as being honest with how the Judicial Board is situated within the SSMU.

Councillor Fried motions to extend question period by five minutes, seconded by the President – UNANIMOUSLY APPROVED.

Councillor Fakih asks how many students are enrolled in the Bachelor of Theology. Governing Documents Researcher Jamal states there are between 29 to 36 students.

Councillor Fried asks Governing Documents Researcher Jamal to elaborate on what self-representation means, as referenced in the preamble. Governing Documents Researcher Jamal states that it is to reflect the views of the VP External, speaking on groups that are already doing advocacy, would, through the SSMU, be able to have their voices amplified by the SSMU, noting advocacy by BSN as an example.

Debate:

Councillor Fakih speaks on the inclusion of a seat for TUSA, stating that there is an issue between less than one hundred students getting one vote, while other faculties, such as the Faculties of Medicine and Law also getting one vote each, yet having hundreds of students.

Senator Lametti motions to amend to change ‘downtown campus’ to ‘downtown and Outaouais campuses’ in the preamble; seconded by Councillor Morgan.

Senator Lametti states that the amendment is to reflect reality as of next year.

Debate:

There is no debate.

Voting on the amendment – PASSES.
Debate on the main motion:

Councillor Mackie motions to amend to state that neither English nor French is paramount, and in the case of conflict, the Governance Appellate Committee should reconcile both versions by analyzing the context, scope, and purpose of the rule in question; seconded by Councillor Kaye.

Councillor Mackie states that there is a rule in Canadian law called the Equal Authenticity Law, which indicates legislation in French and English should be of equal authority. She states that although she understands that this may be a method used by SSMU to promote French and bilingualism, she does not think that this should be the way to do it, given that the French version is the translated version.

Debate on the amendment:

Governing Documents Researcher Jamal strongly advocates against the amendment. He states that the motion is not to promote French language within SSMU, but rather to comply with Bill 101 as a corporation.

Councillor Chase states that the vast majority of students are Anglophone, and as such, does not believe it appropriate to have two versions of the Constitution saying different things.

Councillor Mackie states that she was unaware of Bill 101 and would encourage individuals to vote against her amendment.

[VP External arrives at 19:26.]

Voting on the amendment:

In favour: 1
Opposed: 13
Abstaining: 4

The amendment fails.

Debate on the main motion:
The President speaks on Councillor Fakih’s point on providing representation to TUSA. He notes that he understands that their faculty is small, they currently have no representation, and notes that similar size faculties, such as the Bachelor of Social Work, are currently represented in SSMU.

Governing Documents Researcher Jamal states that TUSA is not represented at all, and given that they are now a faculty, they should be granted the necessary representation within SSMU.

Senator Lametti inquires on why the preamble came to be, stating that in his opinion, it is unnecessarily lengthy, and states his concerns on the preamble shifting representation of everyone to a mouthpiece of certain groups.

Councillor Chase motions to amend to include noting that the English version of the Constitution is reconciled, seconded by Councillor Mackie.

Debate on the amendment:

Governing Documents Researcher Jamal urges Councillors to oppose the amendment. He states that members of the Society will continue to be able to use both English and French. He states that the only change given is that in a situation of discrepancy between the two versions, they will be legally obligated to give authoritative status to the French version.

Senator Lametti states that the amendment is both contradictory, as well as stating that it is not the role of the Executives to amend the Constitution.

Voting on the amendment – FAILS.

In favour: 2
Opposed: 13
Abstaining: 4

Debate on the main motion:

VP External states that the preamble was changed to recognize the status quo of various organizations, noting the superiority of knowledge that certain groups hold over the SSMU.

Senator Lametti motions to amend, including that “SSMU is the official representative of all its members”, removing mention of the “Downtown campus”, seconded by Councillor Dandamudi.

Senator Lametti explains that it is not a contradiction in regard to self-representation, and believes it is important to ensure that the Society continues to act in the best interest of its constituents.

Debate on the amendment:
VP External states the amendment does not appear to be grammatically correct.

Senator Lametti clarifies as to where the deletion would occur.

Voting on the amendment – PASSES.

Tomas Jirousek explains that they wish to expand the fee, based on what they were able to accomplish this past semester. Jirousek explains that a number of presenters/attendees have been pulling out due to COVID-19, and notes that there are some missing figures. g. Motion Regarding SSMU Menstrual Hygiene Products Fee Referendum Question 2020-03-12 – APPROVED

VP University Affairs yields her time to Claire Downie, Menstrual Hygiene Products Coordinator.

Claire Downie states that the initiative began in 2016, and states that the initiative began quite arbitrarily. Now she notes that there are about 50 baskets/dispensers on campus in various washrooms. She states that the increased fee would allow for the continuation of product supply, replacing baskets with dispensers, installing new dispensers, and grants the coordinators an increase in pay.

Question Period:

Senator Lametti inquires as to what the effect of a ‘No’ vote would be. Claire states that a ‘No’ vote would be an end to the program after Fall 2020, given that the fee expires at the end of 2020, and notes that there would be a vote for a renewal.

Debate:

Senator Lametti states that if the program cannot exist with that level of funding, he believes that the referendum question should essentially state that a no vote would essentially end the program.
VP University Affairs states that the increase would be to increase the number of dispensers, as well as an increase in pay for coordinators. She notes that a failure of this vote would result in no advancement of the initiative but notes that the initiative would be able to continue running.

VP University Affairs thanks Claire Downie for her work.

Councillor Abu Yousef asks if, in the case that the fee increase does not go through this year, if they could ask for a fee increase at the end of next term.

Senator Lametti asks if they can see a way forward if funding was to remain as is.

Claire Downie states that she cannot comment on the exact impact, but states that if the fee increase did not go through, operations would be severely constrained.

VP External states that they would technically be able to.

Senator Lametti states that he hopes that it does not come to that and hopes that the fee passes now.

VP University Affairs encourages Councillors to vote in favour of the fee.

Councillor Kaye inquires if the increase would allow for the inclusion of new menstrual products, and if it would allow for the installation of dispensers in male-identifying bathrooms.

Downie states that they have looked into different products but notes that the dispensers require specific products for it to operate. Downie states that she is very in favour of introducing them into male washrooms, but states that it is difficult as it is ultimately McGill's decision.

Councillor Kaye inquires on the details of the meeting between the VP University Affairs and the Associate Director of Residence Life.

VP University Affairs states that the Associate Director had no idea on why the page regarding harm reduction was removed.
