Issue The Services of the Student's Society of McGill University (SSMU) are currently lacking a forum in which to discuss collective struggles and goals. They are thus unable to organize and plan actions as a collective.

Background and Rationale While Services retain a certain level of autonomy under the SSMU, there are still major decisions that impact the operations of Services. The creation of a Services Committee would provide a regular forum for Services to discuss any individual or collective challenges they may be facing, the ways they have been affected by the SSMU's policies, and ways the Services may work together to better their performance.

The idea was brought up in a meeting between representatives of all fifteen (15) current Services on January 15, 2020 and the idea of a Services Committee was supported by most, if not all of the m.

Alignment with Mission The creation of a Services Committee would allow the SSMU to better support our Services and reinforce the fact that they (along with Clubs) are the Society's highest priority.

Consultations Completed

The Vice-President (Student Life) was consulted as well as executives from the Services.

Risk Factors and Resource Implications

The formation of this committee would increase the number of committees the Services Representative is a part of ex officio from one (1) to two (2).

Additionally, the Services Administrative Assistant will have an additional committee to attend, which may impact the hours needed on their contract.

Sustainability Considerations

The formation of this committee has no applicable sustainability considerations.

Impact of Decision and Next Steps

Decision and motion are public information, no communications strategy needed other than to let the Services know that the motion passed. Work will be undertaken by the Services Representative to begin meetings.

Motion or Resolution for Approval

Be it resolved, that the Committee Terms of Reference Book be amended to include the Services Committee, detailed in Appendix A.
