REPORT: SERVICE REVIEW COMMITTEE:

Winter 2021

The Service Review Committee is under the portfolio of the Vice-President (Student Life) and is chaired by the Service Administrative Assistant. During the 2020-2021 academic school year, the Service Review Committee met bi-weekly to review Services and new Service applications.

The Service Review Committee is moving the following recommendations.

WHEREAS, the Service Review Committee held these meetings; and

WHEREAS, the decision of the Service Review Committee must be ratified by the Legislative Council in accordance with 2.1.a.iii of the Internal Regulations of Student Groups;

RESOLVED, THAT the Legislative Council approve the recommendations of the Service Review Committee outlined by the methodology in Appendix A with the results in Appendix B and Appendix C;
Appendix A - Service Review Methodology

Due to the unique nature of this remote school year, the Committee adapted the Service Review Methodology in order to account for the challenges that Services face with remote delivery of services. Interviews were added to the methodology to get more direct input from service coordinators and the criteria were made less stringent than previous years to account for the challenges that Services face with remote service delivery.

**Interviews:** Recognizing that the Committee can never know each Service as well as the individual Service coordinators do, the Services Review Committee made an effort to directly touch base with each Service through an interview whereby each Service had the opportunity to explain their activities planned for the school year, how they are dealing with remote delivery of services, and how we the SSMU can help them.

**Self-Reports:** Recognizing that the Committee can never know each Service as well as the individual Service coordinators do, the Services Review Committee designed a self-report form whereby each Service had an opportunity to explain their structure and goals and to elaborate on their understanding of how they met at least two of the five criteria for the maintenance of Service status.

**Direct Service Audits:** The Services Review Committee made an effort to directly use each Service in order to gain an understanding of the user perspective for each Service. This included direct use of Services and soliciting information from members of Services directly through reviews of their web and social media presence, attendance at office hours, and other methods.

**External Survey Results:** The Services Review Committee designed a survey to be distributed to all students in order to provide the venue for anonymous feedback about an individual's experience with a particular service.

**Review Criteria**

1. Usage
2. Efficiency/Accessibility
3. Mandate Fulfillment
   a. Resources and/or Support
   b. Additionally: Referral, Awareness, Education, and/or Advocacy

**Grading:**

PASS: The Service fulfills the criteria of Service status as outlined in the Internal Regulations of the Clubs and Services Portfolio and is successful in fulfilling its mandate.
