

Report of the Services Representative to Legislative council
Nathan Claret
November 25, 2021

Services Review Committee:

- We've met 3 times this term (October 27th, November 10th and November 24th).
- Services review is going well, when writing this report we only have a few services left to review, will be done very shortly (maybe before the next council).
- We use a google form which makes the review process easy and efficient.

Service Committee:

- Held two meetings so far this semester.
- Services might collaborate in the future (unite forces to work on a motion for example)

Services updates:

- Services were very happy with the referendum:
→ they will be able to implement what they wanted so this is exciting, looking forward to that!
- Overall going smoothly, some services were having troubles at the beginning of the semester due to a lack of volunteers (partially due to what happened at activities night 1), but they are all running smoothly now. Looking forward to activities night in January!
- Services also use 3501 Peel now which is great (more events/workshops) possible!

Please feel free to reach out any time at servicesrep@ssmu.ca if you have any questions or concerns!

Respectfully submitted,
Nathan Claret
