November 24th, 2021
January 25th, 2022

UPDATES:

- At this point in time, all SSMU Services are still in the process of being reviewed by the Committee. A full report with each review along with recommendations for each SSMU Service will be submitted at the end of the Winter Semester.
- The Committee has had to make some changes to our operating procedures in light of the new restrictions announced at the beginning of the semester. Namely, we will be suspending in-person performance evaluations until further notice. We will resume in-person evaluations if and when the University and the Society allow in-person activities to continue.
- The SRC is also working on developing a new component of our methodology which aims to assess Services' online activity and how effectively they deliver key information to their respective audiences. The full criteria for this new component will be included in the methodology section of our final report.
- Online evaluations as well as collection of survey data will continue as planned.

Respectfully submitted,

The Services Review Committee
