

Discussion Point for Legislative Council: Plebiscite Questions

I solicited for non-binding questions (plebiscites) in the Winter 2025 referendum, to student Senators, Legislative Councillors, and students at large. I received 7 responses, and I have anonymized them.

1. Should SSMU advocate that McGill provide for student representation on decision-making bodies relating to emergencies, such as the Emergency Response Group?
2. Do you agree that activities night should be held twice a year rather than once a year?
3. Should SSMU spend effort demanding McGill to divest from military technology?
4. Are you in favor of an increase to the existing Student Athletics Fee by \$10/year to account for facilities improvements for McGill Athletics and Recreation and for the expansion of services in this area?
5. Are you in favor of increased involvement between SSMU and community groups in Montreal, e.g. SLAM/MATU, CMP, and CLAC?
6. Do you believe that SSMU should put more resources into protecting students of color from discrimination at McGill?
7. Has the increased presence of McGill and contracted security made you feel safer on campus?
