

Report to the Legislative Council

Funding Committee

April 9, 2026

Summary

After being inactive since last year, the Funding Committee started its work in early November 2025 once the VP Finance was onboarded and ready to support the Committee and its work. At its peak, the Committee had a backlog of around 60 applications with an ongoing flow of new ones. Once the application period ended on December 3, 2025 and the Committee had the time to make decisions on the applications, the backlog was completely taken care of and the Committee was able to resume at a normal rate and speed starting January 2026.

The Committee did not formally meet in the 2025-2026 year, but decided to conduct online forms to allow for a more efficient approbation process for the backlogs and the ongoing requests. A total of 13 forms were sent and an additional will be sent in the next 2 weeks for the final requests from 2025-2026.

Due to a vacancy in the Funding Commissioner's position, the VP Finance took on the functions of managing the Committee, receiving and uploading requests and supporting documents from the applicants on the appropriate folders and submitting them to the Committee. He also took upon the functions of making recommendations on the applications and preparing and sending the form to the members of the Committee.

Since the beginning of the 2025-2026 year, the Funding Committee has reviewed and made decisions on 239 applications. The Committee approved a total of \$305,207.97 to 182 applicants. In addition, the Funding Committee received and reviewed 3 appeals. All three were adjusted after the appeal.

As of April 5, 2026, the Committee allocated a grand total of \$305,207.97 to 182 applications on a total of 239 applications received for the 2025-2026 year, with the closing of funding applications being April 10, 2026.
